

Fire Science

ONE-YEAR PROGRAM - 200-Program Hours

In Partnership with Maricopa Community Colleges

- Experience the satisfaction of being a first responder, saving lives, fighting fires, and contributing to a safe community.
- Operate a wide range of firefighting and life-saving equipment alongside professional firefighters and EMTs.
- Develop your mind and body through rigorous mental and physical training.

A Program of Study in Emergency Response and Operations in partnership with Maricopa Community Colleges consists of Fire Science for one year and Emergency Medical Technician (EMT) for one year. Successfully completing the West-MEC Fire Science and EMT courses and certifications enable students to meet the three (3) prerequisites needed for admission to the Glendale Community College Fire Department Operations course, widely known as the “Fire Academy.” The “Fire Academy” is specifically for students seeking a career in fire service.

PROGRAM REQUIREMENTS*
